

Liferay Kick-Start Program

A Solution That Fits Your Needs

The Liferay Kick-Start Program engages your team at the beginning of the project lifecycle to help design an effective, low risk roadmap to a Liferay Portal implementation.

Liferay augments your team to help define and guide you through critical milestones and decisions points, advise your intended goals, configuration, logical, physical and solution architecture, project scope, high availability and performance. It translates to a reduction in project risk and faster time to market.

Liferay provides full implementation services under a separate program. For additional details, please contact your account manager.

What are the benefits?	How do we do it?	What will you get?
<ul style="list-style-type: none"> • Get your project started right with a Liferay subject matter expert • Mitigate risk (Time/Tech/Project/Budget) • Experience a higher level of overall project success • Reduced costs both now and in the future with fewer customizations 	<ul style="list-style-type: none"> • Software and hardware review • Inventory of best practices in development and approach • Performance and stability practices • Question and answer sessions to learn from the expert 	<ul style="list-style-type: none"> • A defined solution path that matches your specific needs • Architecture for logical, physical and solution recommendations • Defined best practices • High availability and performance recommendations

Successful Project Delivery Starts with a Carefully Planned Project Launch

We all know that the early steps of a project are important, but does your team have the hands-on experience with Liferay Portal that will allow them to see the ripple effect of their choices in planning and architecture?

The Liferay Kick-Start Program provides you with information architecture, strategy, and technical best practices from Liferay professionals who have countless implementations of Liferay Portal to draw from. Customers who leverage these services have a much greater chance of enjoying reduced project costs, achieving project milestones, reducing execution risk, and most importantly, lowering the ongoing investment cost in their platform.

Even Superstars Need to be Coached Once in Awhile

In the Liferay Kick-Start Program, a Liferay professional will conduct a deep dive review of your software and hardware architecture and configurations. The program provides regular question and answer sessions, an inventory of implementation and development best practices, and industry experience in performance and stability that you would be hard pressed to find anywhere else. In addition, you gain access to Liferay expertise when you need it most: at project inception and final launch with our Go-Live program.

Our Global Services teams have worked across a variety of sectors such as banking, insurance, manufacturing, telecom, government, and healthcare. Global Services has experience working with companies worldwide through our 14 offices in North and South America, APAC, and EU.

Liferay has half a million deployments around the world and thousands of clients, touching millions of lives every day.
