

# Liferay Architectural Review Program

## Bypass Unexpected Roadblocks

Liferay's Architectural Review provides a check-in for those who have started their Liferay implementation and run into unexpected roadblocks. Our Global Services team can help you validate your design and roadmap, as well as identify potential risks. Unexpected issues come up in every IT project; the Architectural Review Program reduces delays and sets you on a smoother path forward.

A Liferay consultant will work alongside your team to review your physical and solution architecture, business goals, high availability and performance. The recommendations you receive will be tailored to your specific environment and benefit from the many customizations our team has prepared over the years.

*Liferay provides full implementation services under a separate program. For additional details, please contact your account manager.*

What are the benefits?	How do we do it?	What will you get?
<ul style="list-style-type: none"><li>• Advice from a Liferay subject matter expert</li><li>• Mitigate risk (Time/Tech/Project/Budget)</li><li>• Set up for sustained project success</li><li>• Reduced costs with fewer customizations and shortened delays</li></ul>	<ul style="list-style-type: none"><li>• Software and hardware review</li><li>• Inventory of best practices in development and approach</li><li>• Performance and stability practices</li><li>• Question and answer sessions to learn from your Liferay expert</li></ul>	<ul style="list-style-type: none"><li>• A defined solution path that matches your specific needs</li><li>• Architecture for logical, physical and solution recommendations</li><li>• Defined best practices</li><li>• High availability and performance recommendations</li></ul>

## Success Is Only a Review Away

When you're initially preparing to launch, hands-on knowledge may not be immediately available. Shorten delays by bringing in a Liferay expert with broad experience applied to your business needs.

The Liferay Architectural Review Program provides you with information architecture, strategy and technical best practices from Liferay professionals to get your project back on track. Customers who leverage these services have a much greater chance of keeping their project on its timeline, achieving milestones and lowering the ongoing investment cost in their platform.

## When You Need an Outside Perspective

In the Liferay Architectural Review Program, a Liferay professional will conduct a deep dive review of your software and hardware architecture and configurations. The program provides regular question and answer sessions, an inventory of implementation and development best practices, and industry experience in performance and stability that you would be hard pressed to find anywhere else. In addition, you gain access to Liferay expertise when you need it most to untangle last minute issues and give your architecture the thumbs up.
