

An open source web portal helping you digitally transform your government agency

Every day, the number of government agencies adopting open source solutions and migrating their proprietary software to more flexible and competitive platforms is growing. Today's decision makers and thought leaders demand software that provides greater capabilities and offers significant cost savings over traditional solutions. Liferay is a trusted open source platform provider for federal, state and local agencies in the U.S., satisfying market demands with important benefits, including integration, security, flexibility, cost effectiveness, scalability and U.S.-based support.

A Leading Platform

In development since 2000, Liferay Digital Experience Platform (DXP) has become one of the world's most popular open source software solutions. The technology is in use by governments worldwide, including U.S. military and civilian applications in both public and non-public spaces. Liferay boasts 5 million total downloads and a global community of 200,000 members.

A Trusted Solution

- Leader in the Gartner Magic Quadrant for Digital Experience Platforms
- Partnership with Carahsoft Technology Corp., a top-ranked GSA Schedule and SEWP Contract holder
