Davide's Roadmap

Any cloud, any premise.

Any AI, any premise.

Solved huge DDoS attack

What did we do?

- NeoEnergia on SaaS got DDoS

- **363M** req on a day (96% malicious)

- 2 different botnets with **23k** endpoints

- **250k req/second** top

- **Machine Learning identified the blocking rule < 2 mins**

- We used ja3 fingerprint to identify the attacking software (2 different set)

- After blocking the **site went back to normal**

Port of Brisbane Attack

- **947M** requests in 2 hours

- **> 2M** requests per **second**

- We could still keep the SLA for the customer

- Government notified the customer about the attack

- Russian cyber army claimed credit

Liferay

Народная CyberАрмия

Доброго дня, КиберАрмия, здравствуйте, австралийцы 👌

Работаем по Порту Брисбена — главному судоходному порту и прибрежному пригороду города Брисбен, на восточном побережье Квинсленда, Австралия.

https://check-host.net/check-report/1f987f17k544

Thanks!
